NOW BOARDING

Make it through security with
the best in packable beauty

BY ALISON ROTH

You shouldn't have to sacrifice great products in order to board your next flight. Many beauty lines create makeup and skin care in suitcase-friendly sizes and purse-ready packaging. CARGO's Jet Lag Concealer and Smile Sciences' Teeth Whitening Pen come in travel-ready doses, so you don't need to worry about security tossing your products in the trash. And the right makeup bag can simplify your on-the-go beauty regime. Everyday Minerals' Brush Roll will keep your brushes clean and unruffled no matter how many destinations you visit. If your accommodations won't have hair-friendly amenities, the Solano 3300 XtraLite Dryer will be your best friend. It's as light as a water bottle but has 1,800 watts of drying power. With the extra help of these and the other products below, you'll be prepared for planes, trains and automobiles!
