► THE SUMMER BLOW-DRY

STEP 1: "Start with hydrating shampoo and conditioner for your hair type," says stylist Orlando Pita, who owns Orlo Salon in New York.

STEP 2: "Work a little smoothing treatment—love oils—into towel-dried hair to prevent frizz. Curly and ethnic hair are more absorbent, so you need more."

STEP 3: "Divide your hair into four sections: front, back, left, right. Start at the back and blow-dry your way forward with a paddle brush; point the dryer at the brush and slowly pull the brush downward to the ends, following it with the dryer. Make sure each section is completely dry before moving on."
